LOS ANGELES, CALIF.

PRICE LIST OF DAHLIAS

GROWN AND OFFERED FOR SALE BY

FRANK C. MULKEY

3863 SOUTH HOBART BOULEVARD

LOS ANGELES, CALIFORNIA

TO MY FRIENDS:

Please accept herewith, a copy of my price-list for the season of 1930. In it will be found many of the new and outstanding introductions from both the East and West. Probably the best of these being JANE COWL, EVA QUADLING AND WALKOVER PRINCE from the East and SANTA ANA, SAN CLEMENTE and SILVERADO from the West. Many others were grown by me, but due to insufficient stock are not listed, but could be supplied in small quantities. Your attention is directed to the very complete list of miniatures. They are becoming exceedingly popular and should be in every garden. I have priced them much more reasonable than most growers. I thank you for your past patronage and hope to maintain your confidence in the future.

SEED

Growing dahlias from seed is the most fascinating part of the game. As you probably know, the seed from the dahlia never produces an offspring similar to its parent, and from seedlings only, are produced the new varieties that are placed on the market each year. Of course, all seed will not make exhibition flowers; in fact, if one or two out of a hundred plants are worth trying the second year, we feel amply rewarded. Seed will produce blooming plants in about 100 days, and will form a nice clump of tubers for the next season's planting. I am prepared to supply seed from nearly all varieties listed in this price list at \$2.00 per hundred seed. Complete cultural directions will be furnished with each order. I do not sell less than 100 seed, but will divide them in four varieties if preferred.

GREEN PLANTS

Green plants are probably more satisfactory to grow than tubers. They produce as good, or better plants, less liable to disease, and make finer flowers. The clumps however, will, as a rule, not produce as many tubers with "eyes" as a clump grown with a tuber. Green plants are only half the price of tubers except where tubers are priced \$2.00 or less, when the price is the same. They are furnished in pots and the culture is the same after planting as tubers. Plants are delivered after May 15.

TERMS—Cash, or satisfactory references.

Transportation: I prepay charges on all retail orders. Wholesale orders, F. O. B., Los Angeles. No charge for packing.

To Dealers: Usual discount to the trade. Please write on your business stationery or enclose card.

Substitution: I do not substitute without permission.

Forwarding: Tubers and plants shipped after danger of frost is passed unless ordered to do so, then at purchaser's risk.

Prices Quoted: Are for strong field grown divisions, and are guaranteed to be in growing condition when shipped.

Cultural Directions: Supplied with each order.

Please Note: Tubers used for propagation purposes are not guaranteed and will not be replaced if they rot.

NON-GUARANTEE CLAUSE

While we guarantee all tubers purchased to be true to name and description as grown by us, there are so many contingencies to be encountered in growing and in setting out tubers and plants, that are dependent on the weather and other conditions over which we have no control, that success in planting is not altogether dependent on seed, tubers or plants. We will send out only such seed, tubers or plants which we believe will grow and produce the kind of plant and variety represented, but we give no warranty, expressed or implied, as to the quality, productiveness or any other matter of any seed, tubers or plants we send out, and we will not be responsible for the crop. If the purchaser does not accept the goods on these terms, they are at once to be returned.

FRANK C. MULKEY'S DAHLIA GARDENS

DECORATIVE

Amarillo Grande , Very large yellow	\$2.00
Avalon , Large yellow. Long stems75
